Regarding the additional information on the proposed activity
“Dismantling and decontamination of equipment from the working areas R1 and R2 of Ignalina Nuclear Power Plant Unit 2 reactor”

The Environment State Bureau (hereinafter – the Bureau), acting as a competent authority on environmental impact assessment in the Republic Latvia, thanks the Ministry of Environment of the Republic of Lithuania for sending the additional information on the environmental impact assessment of the proposed activity *“Dismantling and decontamination of equipment from the working areas R1 and R2 of Ignalina Nuclear Power Plant Unit 2 reactor”* in Visaginas Municipality, Lithuania, approximately 8 km from the border of Latvia.

The Bureau herewith informs that there are no additional comments to be supplemented regarding the environmental impact assessment procedure of the proposed activity.

We are looking forward to our continuous successful cooperation.

Sincerely yours,

Iveta Jēgere

Acting Director of the Environment State Bureau of the Republic of Latvia
