Re: 2023-06-09

No. 5-05/770/2023

**REGARDING TRANSBOUNDARY ENVIRONMENTAL IMPACT ASSESSMENT FOR
THE PROJECT “INCREASING THE PIG BREEDING CAPACITY BY 10 200 PLACES
FOR KEEPING FATTENING PIGS IN THE “TUNKŪNI” COMPLEX”**

This letter is a formal reply to the Notification in accordance with Article 3 of the Convention on Environmental Impact Assessment in a Transboundary Context (hereinafter referred to as the Espoo Convention) regarding an activity listed in Appendix I of the Espoo Convention - “Increasing the pig breeding capacity by 10 200 places for keeping fattening pigs in the “Tunkūni” complex” (hereinafter referred to as the Project).

Lithuania confirms its intention to participate in the procedures of environmental impact assessment (hereinafter referred to as EIA) in a transboundary context.

We have not received comments from the public of Lithuania, however relevant authorities have a few proposals regarding the scope of the assessment of environmental impacts of the Project on the environment of Lithuania.

The main issue of concern is related to the impacts of ambient air pollution and odours on the Lithuanian residential areas close to the Latvian border with Lithuania. It is very important to provide information regarding the indented methods, technologies and locations for spreading the slurry and the distances from these locations to the residential areas of Lithuania.

Also, we would like to receive information on the assessment and consideration of potential alternatives for the use of manure and slurry.

Finally, we consider that it would be appropriate to assess the impacts of pollution on surface and groundwater, especially taking into account provisions of Council Directive 91/676/EEC concerning the protection of waters against pollution caused by nitrates from agricultural sources.

Yours sincerely,

Vice-minister
Raminta Radavičienė

M. Raulinaitis, +370 695 41925, e-mail: mindaugas.raulinaitis@am.lt
